

The Answer to Efficiency and Ease in Your Kitchen

Your restaurant is not just a business, it's your life.

You often work 12-15 hours a day to keep everything afloat and moving smoothly.

You're unique, not a cog in a generic franchise, and always looking for ways to change things up to create a special and memorable experience for your customers.

The kitchen is the engine of your business, and working *smart* and bringing costs down is a top priority. While there is always a human factor involved in efficiency, powerful and user-friendly equipment play a major role.

Introducing Chill-o-Matic's newest addition, the LBR cooler!

Light, Bright and Reliable! A commercial kitchen centerpiece that will bring your productivity and profit to a whole new level:

- More agile than its older sibling, our Heavy Duty Buddy TM – 2 people can easily move it around the kitchen for a more flexible and efficient workspace.
- Just as energy-efficient as competing coolers, but due to its lighter compressor, *weighs less*.
- ***Almost 30% less expensive*** than comparable models from the competition*
- Updated industry-standard glass door resists condensation – allowing its contents to be easily identified for ease of use (we all know how the judicious use of perishables is essential to the bottom line!)

*Up your game and come meet our mighty, modern LBR at the **Restaurateur Conference and Trade Show, September 20-24 in Vegas!***

We're so sure you're going to love our new offspring, we're giving you a **25% discount coupon**, which can be used *anytime* over the next 6 months – saving you up to \$1,000 on a future purchase.

As of today, we're down to the last 48 coupons!

CLICK HERE [BUTTON] to register and not be left off that exclusive list (your personalized coupon can be picked up at the show)!

Be among the first to meet the new LBR cooler, brought to you by industry stalwart, Chill-o-Matic. Let's chill!
